(Copyright, 1910, by American Press Association.)

GRANDPA—Born a long time ago, but still takes an interest in life. Began to receive knit slippers as Christmas gifts a few years back. Would prefer something else this year, maybe a meerschaum pipe.

GRANDMA—Born a few years later than grandpa and still considerably younger. Already has on hand large stock of shoulder shawls received at Christmas. Fancies Chanter bonnets.

PAPA—Born long enough ago to have acquired the ability to judge cigars by natural selection; hence prefers to buy his own brand. Not old enough for gold headed canes. Umbrellas not barred.

MAMMA—Doesn't tell her age except to the census man. Still very young at heart. Deserves the best that gives can afford. Nothing too good for mother.

CHOLLY—Age twenty-one or so. Has fancy tastes, but will accept with thanks anything from a Christmas card to an aeroplane. Likes to fly high anyhow, but will settle down to earth when he gets the girl.

MISS GLADYS—About nineteen now. Dolls and Teddy bears no longer receivable. Boxes of bonbons, chocolates preferred, not refused. Candy kisses acceptable, but prefers the mistletoe make. Willing to receive anything from a jeweled hatpin to an offer of marriage.

THE HEAVENLY TWINS—Born several years ago and growing rapidly. Willie's tastes run to skates, sleds and motorcycles. Millie wants so many things she hardly knows what she wants.

BABY—See family Bible for date of birth. If only six weeks old, rubber rattle thankfully received. If ten months, high chair for table. If three years, contents of entire toyshop.

In Every Detail Has Been
The Corn Show

Officers Elected By Corn
Growers' Association

On Friday afternoon, the annual corn show given under the auspices of the Knox County Corn Growers' Association, in the K. of P. Armory was begun in full blast. Farmers and townspeople filled the hall in large numbers to attend the show which is a rare treat to many interested persons and a satisfaction and pleasure to those who have been fortunate enough to grow corn excellent enough to be entered in the show. The interest shown by the Knox county people is great, not only among the men but among the ladies, a number of them being present both Friday and Saturday to view the various products of agriculture which were shown in great abundance and to hear the interesting talks given by men learned in the art of farming and especially corn growing.

To the visitors entering the hall where the exhibits were shown, it is a great surprise. The large room is entirely filled with benches on which rest the finest specimens of corn, oats, potatoes and various kinds of produce of the soil, and all of them having been grown right here almost at home. Attention is attracted by the exactness in which the judges do their work of rating and classing the various specimens and the satisfied looks on the faces of those owing the exhibits bearing the first prize.

The address on Friday afternoon given by Mr. E. D. Wade of the Ohio State University was very interesting indeed. It was not only interesting, but was helpful and beneficial to every one present. His address was chiefly on the proper means and methods of growing which should be exercised in this particular portion of the country and various comparisons were made between the products of Knox county and those of surrounding counties. He stated that the average amount of corn produced on one acre of ground in Knox county for ten years is 22 2-10 bushels. This fact shows that Knox county is not behind by any means and that it ranks among the first in the state. The address was in all, a very good one and all present must necessarily have derived some benefit that will aid them in their work.

The following officers were elected at the afternoon session on Saturday:

President—L. C. Welsh.
Vice President—L. A. Barnhart.
Secretary and Treasurer—John Cunningham.
Executive Committee—J. B. Stine-mates, Elmer Davis, J. B. Morton, R. C. Ringwalt, George McClelland, George Tulloss, D. S. Stecker, William Coup, Alfred Barton and J. H. Jenkins.

STRICKEN

Down With Paralysis While
At Work

John Burgoon Of Lock In
Serious Condition

Mr. John Burgoon, a farmer residing near Lock, was the victim of a paralytic stroke at about two o'clock on Friday afternoon. Mr. Burgoon left the house just after dinner and stated to Mrs. Burgoon that he was going to the barn, which stands near the house, to do some work. He went to the barn and stayed so long that his wife became alarmed and went in search of him. She found him lying in the snow a few feet from the building in an unconscious condition. With the aid of assistance, Mrs. Burgoon moved the stricken man to the house where medical attention was rendered as soon as possible. On examination, it was found that the greater portion of his body was paralyzed and although he regained consciousness after several hours, he is in a very serious condition.

This is the second attack which Mr. Burgoon has experienced in the last few years and the last one was a great deal more severe than the first.

44 Bu. to the Acre

is a heavy yield, but that's what John Kennedy of Edinburg, Alberta, Canada, got from 44 bushels of wheat in 1910. Reports from other districts in that province showed other excellent crops, such as 50 bushels of wheat from 40 acres, or 50 bushels per acre, 25 3/4 and 40 bushels of oats to the acre, 5 1/2 bushels of corn, 1 1/2 bushels of soybeans and 1 bushel of alfalfa.

Free home-study of 160 acres, and adjoining pre-emption of 160 acres at \$3 per acre, are to be had in the choice districts. Schools, convents, climate excellent, and the very best, railways close at hand, building lumber cheap, fuel easy to get and reasonable in price, water easily procured, mixed farming a success.

Write us to best place for settlement, settlers low railway rates, descriptive literature, "Free Home Study" sent free on application, and other information, to Dept. of Immigration, Ottawa, Can., or to the Canadian Government Agent, 415 Gardner Bldg., Toledo, Ohio.
